JAMES B. YOUNG, MAYOR

Twenty-Eighth Annual Report

OF THE

CITY OF ROCHESTER

NEW HAMPSHIRE

For the Year Ending December 31st Nineteen Hundred and Nineteen ROCHESTER PRINTING COMPANY ROCHESTER, N. H.

Inaugural Address

By Mayor JAMES B. YOUNG

Gentlemen of the City Council:

We have assembled on this occasion for the purpose of inaugurating the City Government for the year 1920. It is not my purpose at this time to weary you with any lengthy remarks as to the needs of the City, as the experience of the last two years has taught me that the best laid plans of mice and men "Gang aft aglee." But it my purpose to ask of you that during this year I shall have your co-operation in all matters that shall pertain to the best interests of our Citizens and our City.

FINANCE

This question is one in which all of our Citizens have an interest. Owing to the high cost of labor and materials it has cost more to take care of the different departments than in previous years. You will find that the same condition is one that has confronted not only all cities but industrial concerns as well. The following is approximately the financial condition at the first of the year:

FINANCIAL STATEMENT, JANUARY 1, 1920

DEBIT

Municipal Bonds, City Hall Bonds, \$182,000 00 34,000 00

Checks out unpaid, Amount due Water Works, on account,	2,072 14,607

POLICE DEPARTMENT

\$96,000 00

the credit of the Water Department,

This department has been conducted along lines of efficiency during the past year. We are very fortunate in having so efficient a department considering the amount of money that is paid our officers and comparing their salaries with those of other cities and towns in our State. In looking over the reports of different cities and towns, some having a larger population and some smaller, I find that we are getting our work done cheaper than most any other place in the State. It should be the duty and it should be a pleasure for every citizen to uphold our officers in the discharge of their duties.

FIRE DEPARTMENT

This department has shown its usual efficiency. If our citizens would bear in mind that each time the department responds to an alarm, that it means considerable expense, and wear and tear on the equipment, perhaps they would not ring in alarms for chimney fires but would go to the nearest telephone and call up the Central Fire Station where there is someone on duty at all times. In report of the N. H. Underwriters of the inspection made last summer, there are many recommendations made that will be referred to you later for your consideration. I would recommend that some very much needed repairs be made at the different fire stations as they are badly needed.

SHADE TREES, PARKS AND COMMONS

Rochester has long been noted for its beautiful shade trees and its numerous small parks. If however we are to retain our reputation in these matters, something has got to be done in the way of finances so that they may be kept in proper shape. During the year many dead trees have been removed by the tree warden and there are a great many more to be cut down. What is the cause for so many of our trees dying is a matter of different opinions, but as has been reported, if it is caused by one of our public utilities, it should be carefully investigated and measures taken to prevent any more loss.

ROADS, BRIDGES AND DRAINS

This department is one that perhaps is subject to more criticism than any other in our city. Whether

justly or unjustly is a matter for your consideration. We as citizens are apt to criticise if the road in front of our residence, or place of business, is not kept in as smooth a condition as we think it ought to be. We do not however stop to think of the fact, so many times presented, that Rochester has more miles of traveled streets and roadsentering the city and a smaller amount of money to do with than the majority of cities and towns in the State. During the past year there has been work done on our main street, so that we have a good road from the City Hotel to the stone bridge. The bridge on Bridge Street was in such a condition that it was necessary to strip it to the stringers and practically rebuild it. As it now is it ought to be good for a period of twenty years, with but little repairs. The bridge over the Isinglass River at Gonic was in bad shape and was newly planked. The road from Gonic to the Dover line by the way of Pickerings has been completed and wherever needed, culverts have been put in in a substantial manner. All that will be necessary to do to this road now is to drag and roll it and it will be one of the best roads between Rochester and Dover. Two years ago I recommended that there be purchased labor saving devices for this department. I would recommend that the city purchase this year a steam shovel. With this machine set at the gravel bank the teams and trucks can be loaded with quickness and much time saved. Not only can it be used for loading but it can be used for excavating in our streets and for ditch digging when putting in sewers. It looks to me as though this would be a matter of economy in the time saved and in labor. I would recommended that there be a one-ton truck purchased to be used in dragging our country roads and in making small repairs where the large trucks or teams would

be expensive. Much other machinery could be used in this department if the amount of the appropriation would allow.

WATER WORKS AND SEWERS

Rochester is very fortunate in having so good a water supply and a plant that can be maintained so cheaply. At the time the inspection was made under the direction of the N. H. Board of Underwriters many recommendations were made and these will be placed before you at a later date for your consideration. It has been the policy of the committee on sinking fund for the last two years whenever the opportunity presented itself to invest the surplus earnings of this department in safe securities so that the interest on the other bonds might be partially balanced. The following is a list of securities in the care of the Treasurer.

City of Loraine, Ohio, 5% bonds due in 1921,	\$2,000	00
Village of Essex Jct., Vt., 4% bonds due in 1922,	1,500	00
Seattle School Dist., Wash., 4% bonds due in		
1922,	5,000	00
U. S. Victory Loan,	5,000	00
City of Wilksbarre, Penn., 41/2% bonds due in 1922,	500	00
City of Portland, Me., 3½% due in 1922,	1,000	00
City of Saginaw, Mich., 31/2% bonds due		
in 1922,	1,000	00
Clifford Park, N. J., 5% due in 1922,	2,000	00

Province of Ontario, Ca., 5% bonds, due in 1922, 20,000 00
City of Rochester, N. H., 4% City Hall bonds, due in 1924. 1.000 00

City of Woonsocket, R. I., 5% bonds, due in 1922. 1.000 00

City of Rochester, N. H., 4% municipal bonds, 56,000 00

\$96,000 00

PUBLIC SCHOOLS

Our schools should receive from every citizen the best of support. It is through education that our boys and girls are able to obtain and hold higher positions in life and are prepared to become better citizens than would be the case were not the means provided for obtaining the same. I believe that under the new law passed at the last session of the Legislature, that better results will be obtained than heretofore. The evening schools, that were started a little more than a year ago, are proving a great success. Great enthusiasm is being shown by the pupils in their studies and I believe that we should be willing to do our part financially as it means a great deal in the making of American citizens, and if we do not do our part the results might be otherwise. In the Budget that will be presented to you for your consideration it will be observed that the largest item is for teachers' salaries. Any teacher, who fits himself for this branch of public work, is certainly entitled to consideration in this matter and should not be expected to work for a considerable less wage than is paid to workers in our shops and

mills. I certainly hope that when this matter is presented to you for your consideration you will give the matter your careful attention as it means a great deal to our future citizens, our boys and girls.

PUBLIC LIBRARY

The Public Library is one of our institutions in which we may justly take a great deal of pride. The number of books given out this year is 66.228, a daily average of 221. There was given out 9,543 more books than last year. In the children's room 20.019 books have been given out and 9.885 children have visited this room: 18.599 readers and students were counted during the six or seven hours of the 304 days. Of this number 2,343 were students requiring assistance for theme or study; 35 students were counted in a single day. 2.104 books have been sent to the different agencies and a total of 4.470 books given out showing an increase over last year of 797. The question arises. Can we afford to let so valuable an agency for good in our community take a backward step, or shall we appropriate a little more money for this purpose and by so doing place it on the footing that it should be placed upon? The Librarian's report certainly shows that the library is doing good work and I believe that it is our duty and the duty of every citizen to assist in this work.

CONCLUSION

In conclusion I desire to express my appreciation of the good will shown me by the members of the City Council and the heads of the different departments during the last year. I certainly appreciate the many acts of kindness shown me and hope that during this year our relations may be as pleasant. Now let us all get together with the determination to do our best, that our city will be the more prosperous because of our acts as officials.

City Government

As Organized January 7, 1920

MAYOR

JAMES B. YOUNG

COUNCILMEN

Important Resolutions and Orders

PASSED BY THE CITY COUNCIL

FOR PRINTING CITY REPORT

Resolved by the City Council of the City of Rochester:

That the City Clerk be instructed to prepare for the printer all matter that is to go into the City Report and that the Committee on Printing be instructed to advertise for bids for printing the same, and that the printing be let to the lowest responsible bidder.

Passed January 7, 1920.

TO RAISE MONEY IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That a sum not exceeding twenty-five thousand dollars be raised on note or notes of the City providing it is necessary to do so, the same to be raised in anticipation of taxes and to be taken up at the earliest possible date that the balance in the Treasury will permit.

Passed January 27, 1920.

FOR ANNUAL APPROPRIATION

Resolved by the City Council of the City of Rochester:

That for the support of the various departments for the year 1920, there be raised by taxation the sum of two hundred and forty-five thousand, eight hundred twenty-one dollars and forty-threecents (\$245,821.43), and the assessors are directed to assess that amount, with such overlay as may be thought necessary.

Passed January 27, 1920.

TO RAISE MONEY IN THE SPRINKLING PRECINCT

Resolved by the City Council of the City of Rochester:

That the sum of twenty-five hundred dollars (\$2,500.00) be raised by taxation within the sprinkling precinct in accordance with an act of the Legislature creating said precinct, and the assessors are directed to assess that amount.

Passed January 27, 1920.

TO AMEND CHARTER

Resolved by the City Council of the City of Rochester:

That the delegation in the Legislature now in Session at Concord be requested to introduce in the General Court an amendment to Section 14 of the City Charter delegating to the City Council of the City of Rochester the power to fix and determine the annual salary or compensation of the Mayor and to use their utmost efforts to have the same passed, and that the City Clerk forward to each representative from this City and to the Senator from this District copies of the resolution.

Passed Jan. 21, 1919.

TO DISPOSE OF ONE PAIR OF HORSES

Resolved by the City Council of the City of Rochester:

That the Mayor and Committee on Roads, Bridges and Drains be authorized to dispose of one pair of the horses belonging to the Highway Department.

Passed Jan. 21, 1919.

TO PURCHASE ONE PAIR OF HORSES

Resolved by the Mayor and City Council of the City of Rochester:

That the Mayor and Committee on Roads, Bridges and Drains be authorized to purchase one pair of Horses, the money for the same, to be taken from the regular appropriation for the Highway Department. Passed Jan. 21, 1919.

AMENDMENT TO ORDINANCE, INCREASING THE SALARIES IN THE FIRE DEPART-MENT

Be it Ordained by the City Council of the City of Rochester as follows:

That Section 1 of Chapter 24 of the City Ordinances be amended by repealing paragraphs 17, 18, 19, 20, 21 and 22 relative to the salary and pay of assistant engineers and members of the fire companies and inserting in place thereof the following:

"The first assistant engineer of the fire department,

one hundred and fifty dollars, payable semi-annually from the fire department.

The second assistant engineer of the fire department, one hundred and fifty dollars, payable semi-annually from the fire department.

The third assistant engineer of the fire department, seventy-five dollars, payable semi-annually from the fire department.

The fourth assitant engineer of the fire department, seventy-five dollars, payable semi-annually from the fire department.

Members of Companies 1, 2, 5 and 6, seventy-five dollars each, payable semi-annually from the fire department.

Members of Companies 3 and 4, thirty dollars each, payable semi-annually from the fire department."

Passed January 21, 1919.

AMENDMENT TO ORDINANCE, RELATING TO SALARY OF OVERSEER OF THE POOR

Be it Ordained by the City Council of the City of Rochester as follows:

That we amend paragraph 23 of Chapter XXIV of the General Ordinances of the City of Rochester, relating to the Salary of the Overseer of the Poor, by striking out the word two in the first line thereof and inserting in place thereof the word "three," so that said paragraph as amended shall read as follows:

"The Overseer of the Poor three hundred dollars payable quarterly from the Salary Department."

Passed February 4, 1919.

RETIREMENT OF OFFICER PETER SYLVAIN

WHEREAS, Our esteemed friend and fellow citizen retires as night-watch as a member of the police force of our city, an office which he has filled with great acceptability and universal satisfaction for over thirty years, therefore,

Resolved, That we hereby express to him our sincere thanks for his untiring labors in behalf of our city and of the public interest and assure him of our earnest wish that he may enjoy the happiness of a peaceful and serene old age.

Resolved, That a copy of these resolutions properly engressed be presented to him as a mark of our esteem.

Passed Jan. 21, 1919.

TO PROVIDE FOR REIMBURSING THE BOARD OF SUPERVISORS FOR EXPENSE INCURRED WHILE IN THE PERFORMANCE OF THEIR DUTIES

Resolved by the City Council of the City of Rochester:

That the City Clerk be authorized to draw an order on the City Treasurer for the amount necessary to reimburse the Board of Supervisors for the expense incurred by them in the performance of their duties. The following are the Supervisors who incurred such expense: Charles H. Henderson, Chairman; Charles S. Clark, Ward One; James O. Watson, Ward Two; Harry H. Meader, Ward Three; Frank P. McDonald, Ward Four; Charles E. Woodward, Ward Six.

Passed March 4, 1919.

AMENDMENT TO ORDINANCE, RELATING TO WEEKLY PAYMENTS FOR CITY OFFICIALS

Be it Ordained by the City Council of the City of Rochester, as follows:

That we amend Chapter XXIV of the City Ordinances, as revised January, 1915, as follows:

Amend paragraph 2 of Section 1, relating to the salary of the Mayor, by striking out the words "four" and "quarterly" in the first line thereof and inserting in place thereof the words "six" and "weekly." So that said paragraph as amended shall read as follows:

"The Mayor six hundred dollars, payable weekly from the Salary Department."

Also amend paragraph 3 of said section as amended Feb. 12, 1918, by striking out the word "twelve" in the first line thereof and inserting in place thereof the word "fourteen" and striking out the word "monthly" in the second line thereof and inserting in place thereof the word "weekly" so that said paragraph as amended shall read as follows:

"The City Clerk fourteen hundred dollars, and an assistant in the Clerk's office to be engaged by the Clerk on the following schedule: said assistant to be paid four hundred dollars the first year, five hundred dollars the second year, and six hundred dollars the third year. Six hundred dollars to be the maximum salary for this position. When a new assistant is engaged the same schedule shall be followed. The City Clerk and Assistant Clerk to be paid weekly from the Salary Department.

Also amend paragraph 8 of said section as amended Aug. 7, 1917, and March 5, 1918, by striking out the "monthly" in the second line thereof and inserting in

place thereof the word "weekly" so that said paragraph shall read as follows:

"The Superintendent of Water Works and Sewers twelve hundred dollars, payable weekly; one thousand from the Water Department and two hundred dollars from the Sewerage Department."

Also amend paragraph 9 of said section as amended Aug. 7, 1917, and March 5, 1918, by striking out the word "monthly" in the third line thereof and inserting in place thereof the word "weekly," so that said paragraph as amended shall read as follows:

"The Street Commissioner, one thousand dollars for his services and two hundred dollars in addition for conveyance used in the discharge of his duties, payable weekly from the Highway Department."

Also amend paragraphs 10, 11 and 12 of said section, as amended Aug. 7, 1917, and March 5, 1918, by striking out the word "monthly" in the second line of each paragraph and inserting in place thereof the word "weekly" so that said paragraphs as amended shall read as follows:

"The City Marshal, twelve hundred dollars payable weekly from the Police Department. The Assistant Marshal, eleven hundred dollars, payable weekly from the Police Department. The Night Watch, nine hundred dollars payable weekly from the Police Department."

Also amend paragraph 15 of said section as amended Feb. 12, 1918, and Sept. 3, 1918, be amended by striking out the word "monthly" in the last line thereof and inserting in place thereof the word "weekly" so that said paragraph as amended shall read as follows:

"The Chief Engineer of the Fire Department, one thousand dollars, the first auto driver, three dollars per day, and the second auto driver, three dollars per day, payable weekly from the Fire Department." Also amend paragraphs 26 and 27 of said section as amended Jan. 23 and Aug. 7, 1917, and March 5, 1918, by striking out the word "monthly" in the second line thereof and inserting in place thereof the word "weekly," also amend paragraph 27 relating to the salary of Assistant Janitor as amended Aug. 7, 1917, by striking out the words "thirteen dollars and fifty cents" and inserting in place thereof the words "fifteen dollars" so that said paragraphs as amended shall read as follows:

"The Janitor, eighty-four dollars per month payable weekly from the Salary Department. The Assistant Janitor, fifteen dollars payable weekly from the Salary Department."

Also amend paragraph 22 of said section as amended March 5, 1918, relating to the salary of the Sanitary Officer, by striking out the word "quarterly" in the last line thereof and inserting in place thereof the word "weekly" so that said paragraph as amended shall read as follows:

"The Sanitary Officer and conveyance, five hundred and fifty dollars per year, payable weekly from the Salary Department."

All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance to take effect on its passage.

Passed March 4, 1919.

TO REPAIR CITY CLOCK

Resolved by the City Council of the City of Rochester:

That the sum of eight hundred dollars (\$800) or

such part thereof as necessary be appropriated for the purpose of repairing the City Clock and placing illuminated dials upon the same, said amount to be expended under direction of the Mayor and a Committee of two, to be appointed by the Mayor, and to be paid from any money in the treasury not otherwise appropriated.

Passed April 1, 1919.

TO RAISE MONEY FOR STATE TAX

Resolved by the City Council of the City of Rochester:

That the sum of thirty-one thousand three hundred two dollars be raised by taxation for the purpose of paying the City's share of the State Tax, and that the City Assessors be directed to assess said sum upon the property within the City for this purpose.

Passed April 9, 1919.

TO RAISE MONEY FOR STATE BONUS FOR SOLDIERS

Resolved by the City Council of the City of Rochester:

That the sum of sixty-nine hundred fifty-six dollars be raised by taxation for the purpose of paying bounties to the soldiers, and that the City Assessors be directed to assess said sum upon the property within the City for this purpose.

Passed April 9, 1919.

AMENDMENT TO ORDINANCE RELATING TO THE PAY OF TEAMS

Be it Ordained by the City Council of the City of Rochester as follows:

Amend paragraph 7 of Section 1 of Chapter 24, as amended July 11, 1917, and March 5, 1918, by striking out the whole thereof and inserting in place thereof the following:

"The maximum sum to be paid for the labor of a double team shall be six dollars and fifty cents per day. Said team shall consist of a driver, two horses and wagon or implement necessary to perform a day's work. Preference to be given to the residents of the City.

The maximum sum to be paid for the labor of a single team shall be four dollars and seventy-five cents per day. Said team shall consist of a driver, one horse and wagon or other implement necessary to perform a day's work.

Nine hours exclusive of the time going to and from work shall consist of a day's work. Preference to be given to the residents of the City. The amount to be paid under the maximum charge shall be left to the discretion of the heads of the departments, hiring such teams. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect on its passage.

Passed May 6, 1919.

TO PURCHASE HORSES FOR FIRE DEPART-MENT

Resolved by the City Council of the City of Rochester:

That the Mayor and Committee on Fire Department

be instructed to provide said Department with a pair of horses, suitable to carry on the work of said Department or to make such changes as may be necessary to better equip the fire apparatus.

Passed June 3, 1919.

AMENDMENT TO ORDINANCE GIVING MAYOR AND COMMITTEES THE RIGHT TO FIX PAY OF LABORERS AND TEAMS

Re it Ordained by the City Council of the City of Rochester as follows:

That paragraphs 32 and 33 of Section 1 of Chapter 24 of the City Ordinances of the City of Rochester, and all amendments thereto, be and are hereby repealed.

Passed July 1, 1919.

AMENDMENT TO ORDINANCE RELATING TO THE SALARY OF NIGHT WATCH

Be it Ordained by the City Council of the City of Rochester as follows:

That we amend paragraph 13 of the General Ordinances as amended March 5, 1918, by striking out the words "nine hundred" in the first line thereof and inserting in place thereof the words "one thousand," so that said paragraph as amended shall read as follows:

"The Night Watch, one thousand dollars, payable weekly from the Police Department."

All ordinances and parts of ordinances, inconsistent with this ordinance, are hereby repealed and this ordinance shall take effect upon its passage.

Passed July 1, 1919.

AMENDMENT TO ORDINANCE REPEALING CLAUSE RELATING TO EXPLOSIVES

Be it Ordained by the City Council of the City of Rochester as follows:

That Sections 1 and 2 of the ordinance passed at June 5, 1917, session of the City Council, relating to the sale and use of fire works and explosive material, be and hereby is repealed.

Passed July 1, 1919.

RELATING TO VACATION OF POLICE OFFICIALS

Resolved by the City Council of the City of Rochester:

That the members of the Police Department be given a vacation of one week, with pay. The same to be under direction of the Mayor.

Passed July 1, 1919.

TO EXEMPT UNITED BOX AND LUMBER CO. FROM TAXATION

Resolved by the City Council of the City of Rochester:

That the United Box & Lumber Company be exempt from taxation for City taxes for a term of ten years upon the manufacturing establishment proposed to be erected and put in operation within the City of Rochester, including the machinery, buildings and equipment therein, but said property shall be taxed and assessed for the purpose of state and county taxes.

Passed July 22, 1919.

TO EXEMPT FROM TAXATION THE C. T. GRINNELL SHOE CO.

Resolved by the City Council of the City of Rochester:

That the C. T. Grinnell Shoe Co. be exempt from taxation for City taxes for a term of ten years upon the new business, which they propose to establish in this city. Said exemption to affect only the machinery and stock, but said property shall be taxed and assessed for the purpose of state and county taxes.

Passed August 5, 1919.

TO ALLOW FISHING IN RESERVOIR FROM AUG. 11 TO AUG. 25

Resolved by the City Council of the City of Rochester:

That the committee on Water Works be instructed to open up the Reservoir for fishing from August 11 to August 25 inclusive. All fishing to be under the direction of the superintendent.

Passed August 5, 1919.

TO PROVIDE FOR EXCHANGE OF LAND ON THE FARMINGTON ROAD WITH JAMES MCALLISTER

Resolved by the City Council of the City of Rochester:

That the Mayor and Committee on Roads, Bridges and Drains be empowered to negotiate with James McAllister for the exchange of tracts of land situated on the Farmington Road, upon such terms and at such time as they may seem best. And the Mayor is hereby

empowered to execute in the name of the City the deed of the land conveyed to McAllister and to accept and receive from said McAllister the deed of the land conveyed to the City.

Passed September 2, 1919.

TO PROVIDE FOR CHANGING HYDRANT

Resolved by the City Council of the City of Rochester:

That the Committee on Fire Department be authorized and empowered to request the Water Department to remove the hydrant now standing at the junction of Congress Street with Central Square, and replace it by the new hydrant now on hand, locating the same at its proper height, before the labor of resurfacing Central Square is fully performed, and upon delay or refusal of the Water Department to do this work within that time, the Fire Department is hereby empowered to cause the work to be done and the cost and expense thereof to be paid from the Water Department.

Passed September 2, 1919.

TO APPROPRIATE \$1,000 FOR TESTIMONIAL TO RETURNED SOLDIERS

Resolved by the City Council of the City of Rochester:

That a sum not exceeding one thousand dollars be placed at the disposal of a special committee, appointed to arrange a suitable testimonial for the returned soldiers. Said sum to be used to purchase memorial badges and to provide for the expense of exercises attached to such celebration. Said sum to be paid from

any money in the treasury, not otherwise appropriated.

Passed October 7, 1919.

TO RAISE FIFTEEN THOUSAND DOLLARS IN ANTICIPATION OF TAXES

Resolved by the City Council of the City of Rochester:

That the Committee on Finance be authorized to hire on note or notes of the city a sum not exceeding fifteen thousand dollars, in anticipation of taxes, providing it is necessary to do so. Said notes to be taken up at the earliest possible date that the balance in the treasury will permit.

Passed October 7, 1919.

TO PROVIDE FOR STATE SUPERVISION OF SCHOOLS

Whereas, since the Annual Appropriation for the support of the schools of the City of Rochester was made in January, 1919, and such appropriation covered the current expenditures for such year and the Legislature of 1919 enacted laws covering the supervision of schools, after such appropriation was made, and such law called upon the City of Rochester to pay into the State Treasury on or before December 1, 1919, the sum of three thousand five hundred and thirty dollars for state supervision covering the school year from Sept. 1, 1919, to Sept. 1, 1920.

Be it resolved that such sum of thirty-five hundred and thirty dollars be paid from the funds of the School Department and any deficiency which may occur in said Department be provided for by transfer from other departments which have a balance.

Passed Dec. 4, 1919.

TO TRANSFER FROM ONE DEPARTMENT TO ANOTHER

Resolved by the City Council of the City of Rochester:

That if found necessary in closing the accounts of the year to transfer from a department where there is a balance to a department where there is a deficit, the committee on finance be instructed to make such transfer.

Passed December 4, 1919.

TO GRANT PERMIT FOR LIQUOR AGENCY

Resolved by the City Council of the City of Rochester:

That one permit for the sale of liquor for medicinal, sacramental, scientific and mechanical purposes be granted to a druggist of this city as provided in Section 9 of Chapter 99 of the 1919 Session Laws of the State of New Hampshire.

Passed January 6, 1920.

WELCOME HOME DAY

On February 4, 1919, Mayor Young called to the attention of the City Council the matter of having the City show its appreciation of the Boys of Rochester, who had been in the service of the United States during the World War.

On motion of Councilman Meader, it was voted that the Mayor appoint a committee with himself as chairman, to formulate plans for such a testimonial. The mayor appointed Councilmen Meader and Seavey.

The boys were being discharged continuously during the year, so that the day for giving them a welcome was delayed until November 27, Thanksgviing Day, 1919. The Committee, with the co-operation of the members of Rochester Post, No. 7, American Legion, formulated plans and the following programme was arranged: Parade starting at 2.30, headed by Rochester City Band, in line as follows: Rochester Post, No. 7, and all other service boys, Boy Scouts, Jr. O. U. A. M., and G. A. R., Mayor Young, Governor Bartlett, and Committee in Autos.

At the City Opera House Mayor Young acted as Master of Ceremonies, presenting the different details of the Welcome. The City Band played various patriotic selections as accompaniment for singing by the audience. Comrade Hiram Philpot, in behalf of the City, presented to Rochester Post, No. 7. American Legion, a handsome silk flag with staff and equipment for parade, as a testimonial from the City of Rochester. This was accepted by Harold C. Baker, Commander. Address by Governor Bartlett. Mayor Young read the following list of Rochester boys, who had lost their lives in the service, giving a short historical sketch of each boy, and presented a medal to their nearest relative: Horace G. Buckman, Lloyd E. Carpenter, Clayton Claude Chaplin, Andrew F. Connell, Charles J. Downing, Alvah W. Emerson, Joseph F. Horne, Cecil W. Leighton, Arthur R. Lemke, Louis J. Marcotte, George Maxfield, Benjamin F. Quinlan, Charles W. Sanborn, Earl C. Stanley, Irving Veno, Clifton Wormwood, Leslie G. Whitman.

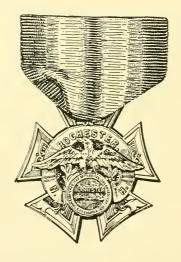

And in behalf of the City of Rochester and as a testimonial of the appreciation of their services, presented to each Rochester boy who had been in the service, a bronze medal on the front of which is inscribed the word, "Rochester" and the "City Seal," on the back is inscribed, "Presented to her gallant Sons by the City of Rochester, N. H., in grateful recognition of their part in the World War 1917-1918.

In the evening was held the Welcome Home Concert and Ball, with music by the Lenox Banjo Orchestra.

The following is an itemized statement of the Welcome Home exercises and expenses as voted by the City Council in meeting October 7, 1919:

The Whitehead & Hoag Co., medals \$	337	71

Respectfully submitted,

BURT R. COOPER, CECIL C. SHAW, JOHN S. KIMBALL,

Trustees of Trust Funds for the City of Rochester.

Auditor's Certificate

I have examined the accounts of the Trustees of the Trust Funds of the City of Rochester for the year 1919, and find them correctly cast and properly vouched for as per the above summary.

BYRON HORNE,

Auditor.

February 15, 1919.

Expenditures of Water Works

For the Year Ending December 31, 1919

Report of

Superintendent of Water Works

FOR THE YEAR ENDING DECEMBER 31, 1919

To the Committee on Water Works:

Gentlemen:—The twenty-eighth annual report of this department is herewith submitted.

Source of supply during the year: Round Pond Jan. 1 to Jan. 14 and June 7 to Dec. 31; Reservoir, Jan. 14 to June 7.

The supply has been ample and the quality good. Favorable reports have been received from the State Chemist.

The water at East Rochester had a bad taste and color in the Fall but we were able to improve it after a few days.

A small amount of construction work was performed the past year as follows:

Farrington St., 2-in. galvanized W. I. pipe laid 788 feet Twombly St., 1-in. galvanized W. I. pipe laid 470 feet Lowell St., ext., 1-in. galvanized W. I. pipe laid 125 feet Hobarf St., 1-in. galvanized W. I. pipe laid 133 feet Off Upham St., 1-in. galvanized W. I. pipe laid 319 feet Pine St., ext., 1-in. galvanized W. I. pipe laid 81 feet Gagne St., 2-in. galvanized W. I. pipe laid 47 feet Chestnut Hill Road, 1-in. galvanized W. I. pipe

laid 359 feet

2,322 feet

Total laid to date	33 miles, 4,483	feet
No new hydrants have been	n installed this year.	
Hydrants repaired		5
Hydrants to date		186

Number of feet of service pipe laid during the year: 3 $_4$ -inch 3,626 feet 1-inch 828 feet, 1 inch $1_{\frac{1}{4}}$ -inch 357 feet 9 inches 2-inch 25 feet, 8 inches

An inventory of tools in this department is on file in the City Clerk's Office.

To the Water Committee, Mayor and Honorable Council, I wish to extend my thanks for the assistance and support accorded me during the past year.

Respectfully submitted,

J. FRANK ELLIS,

Superintendent.

Report of

Chief Engineer of Fire Department

To the Honorable Mayor and City Council of the City of Rochester:

Gentlemen:—In rendering my report of the Fire Department for the year ending Dec. 31, 1919, I would state that we have not been so fortunate this year in keeping down the fire losses as we have been in the past. We had two serious fires in June, but I think the citizens were satisfied in the way the Department handled these fires. I think everything should be done to keep up this Department and to be prepared for whatever emergency may arise by adding more up-to-date equipment.

There have been fifteen bell alarms, ninety-one still alarms, mostly chimney fires, twenty-two brush and forest fires, one bell alarm and eight still alarms at East Rochester; two bell and eight still alarms at Gonic, making a total of one hundred and forty-seven alarms for the year.

The amount of property involved is as follows:

Value of buildings	\$55,250	00
Insurance on same	34,700	00
Losses paid	16,178	00
Value of contents	336,626	75
Insurance on same .	291,750	00
Losses paid	61,502	74

The motor truck has responded to one hundred and forty-five alarms this year. Twelve of these fires have been where some part of the building was on fire and have been put out by the men and chemicals, and has saved water damage.

I would recommend that the city purchase another suitable motor truck, a pair of horses, a thousand feet of hose and also more fire alarm boxes. The question of what constitutes a sufficient number of fire alarm boxes is a question that vitally concerns every city official and tax payer. If there is an insufficient numof boxes, the City Government is not as efficient as it should be. If there is an insufficient number of boxes, the taxpayer is not getting the protection, to which he is entitled.

THE RESULTS OF TOO FEW BOXES

The first and the obvious disadvantage of having too few fire alarm boxes is the loss of time between the discovery of the fire and the notification of the department. The first few moments in fighting a fire are the vital moments. The arrival of the Fire Department a few minutes earlier or a few minutes later, may make the difference between a small fire and a conflagration. It may make the difference between a fire that can be put out by chemicals and one that requires one or two alarms.

When boxes are few in number and widely scattered, the person who discovers the fire stays and ineffectually fights the fire himself, as the result you can see from our two June fires.

When the boxes are frequent in number, there is less temptation to stay and fight the fire single-handed.

The alarm is sent in promptly, the department arrives quickly and has opportunity to put out the fire before it does much damage.

In behalf of the Fire Department, I will take this opportunity to extend our sincere thanks to all those who have been so kind and have given to the Department, to show that they appreciate their good work. In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the officers and members of the Fire Department, for the promptness with which they have discharged their duties during the past year. We would also thank the Mayor and Members of the Fire Committee for their good work, for improvement in the Department.

In conclusion I wish to thank the Mayor and the Members of the City Council for what they have done to assist the Department during the year.

Respectfully submitted,

JOHN F. NUTE,

Chief Engineer of the Fire Department.

Respectfully submitted,

GEORGE H. MAGOON,

City Marshal.

Note.—Police telephone boxes are located at two places as follows: Central Square, near Dodge Block; Boston and Maine Station. The Police Department telephone call is 107-4. The City Marshal's residence call is 228-2.

Report of Board of Health

To the Hon. Mayor and City Council of the City of Rochester:

We herewith submit our report for the year ending

December 31, 1919. Number of Contagious or Infectious Diseases Reported Diphtheria 33 (with only one death) Measles 8 Scarlet fever 5 Typhoid fever 1 Infantile paralysis 1 Chicken pox 3 (all recovered)

Number of deaths from all causes, not includ-	
ing stillbirths	125
Number stillbirths	5
Death rate per 1,000 (estimated population	
10,000)	$12 \frac{1}{2}$
Number of houses fumigated	40
Number of rooms fumigated	109
Allen schoolhouse fumigated	
Number of complaints (all investigated)	55
Number of calls on sick	210
Number of dead animals taken care of	14

We wish to call attention to the fact that there was only one death in the 33 cases of diphtheria, an eloquent tribute to the early use of antitoxin.

All of which is

Respectfully submitted,

D. L. STOKES, M. D., F. L. KEAY, M. D., JOHN I. RANKIN,

Board of Health.

Amount	expended over appropriation	\$ 403	32

Respectfully submitted,

FORREST L. KEAY,

Overseer of Poor.

Report of City Solicitor

To the Honorable Mayor and City Council of the City of Rochester:

Gentlemen:—Again we have the pleasure of informing you that the affairs of your city have been so handled and conducted during the year of 1919 that very few disputes have arisen and no suits have been brought against the city for matters wholly within the control of the city officials.

A claim however has been made and suit brought by the Independent Coal Tar Company, of Boston. against the city for services and expenditures in the reconstruction of the State Road over Rochester Hill for work done during the latter part of the summer of 1918, which was entered at the September Term of the Superior Court for this County and is now pending there. As this is a State Road, and under the jurisdiction of the highway department of the State of New Hampshire, which has charge of all of the construction and repairing of State Highways, the State of New Hampshire, by the Attorney General, Oscar L. Young, entered its appearance in defence of this suit. and is defending against said claim. But it is the duty of the City of Rochester to render to the State of New Hampshire such assistance as it may be able to have justice done therein.

Another claim has been presented against the City of Rochester by Edith J. Chase for injuries received

by stepping into a hole in the street surface on Central Square, but not within the ten days required by law for the purpose of bringing suit thereon, and a petition has been filed in the Superior Court for permission to bring suit against the City on said claim. We have entered our appearance in said suit, and made a motion to dismiss the said petition, but no hearing has yet been had upon the same.

Respectfully submitted,

ELMER J. SMART,

Solicitor.

Report of

Library Trustees

To the Honorable Mayor and City Council of Rochester:

Gentlemen:—I have the honor to present in behalf of the Trustees of the Rochester Public Library, the twenty-sixth annual report, also the librarian's and treasurer's report for the year ending December 31, 1919.

It is gratifying to the trustees to report the increasing interest in the public library, the large attendance of students and young people in the reading rooms. No doubt this has been largely due to the interest in war news and in the latest books both in story and history which have been added to the library. This has caused a large amount of extra work for the librarian and assistants, without any extra compensation.

There is today a nation-wide movement to raise the salaries of librarians and assistants. Library work in the smaller communities has always been more or less a sort of mission work but this is no longer necessary and in view of the important place which the library fills in a city, the demands made upon it, together with the high cost of living, we should not ask the members of the library staff to give so much of themselves for so small a financial return.

\$6,074 00

Library work is really comparable only with the profession of teaching and after two years of general practice work as an equivalent for normal training, a library assistant should be given a salary on a par with the higher grade teachers, with the same ratio of increase. The librarian, combining with an education which fits for the work a knowledge of books and of library methods, should be placed on a par with the head teachers of the high school, and taking into consideration the executive ability and business training necessary to fill the position creditably, the position approaches more nearly that of the superintendent of schools.

In order to meet the demands of the public the trustees would respectfully submit the following:

Budget of Public Library Expenses for 1920

Salaries:		
Librarian	\$1,050	00
Two assistants	1,300	00
Third asistant	400	00
Janitor	500	00
Extra help	50	00
Secretary of Board of Trustees	50	0.0
	\$3,350	00
Library at Gonic	100	00
Books	1,000	00
Periodicals	191	00
Coal, lights, etc.	546	00
Repairs and insurance	250	00
Printing, supplies, etc.	365	0.0
Binding	238	00
Telephone	34	0.0

We trust the Honorable Council will take into consideration the increase in the price of books, periodicals and supplies, which have more than doubled, and the fact that the insurance will have to be renewed this year. We also ask the Council to take into consideration the value of the public library to the public schools and to our city and to make the appropriation as requested in the budget, \$6,074.00.

For further information in regard to the actual work of the library, we would refer you to the librarian's report.

The trustees wish to express their appreciation of the efficient work done by the librarian and her assistants during the year.

For the Trustees,

JOHN YOUNG.

Secretary.

Report of Librarian

To the Board of Trustees of the Rochester Public Library:

Gentlemen:—In order that you may have an actual knowledge of the work of the library, as far forth as it can be made known by figures and comparisons, it is again necessary to present a detailed account, with the accompanying table of statistics. I therefore present to you, this report, for the year ending December 31, 1919.

In summing up the work of a year, two things always seem of paramount interest, one, what the public has done for the library, the other, what the library has done for the public.

In relation to the first, the appropriation, upon which all things depend, was increased a little, and the small amount gained helped to balance the increased cost of maintenance. By careful management, and curtailing in every possible way, more books have been purchased this year than last.

The 571 books purchased, together with the gifts and the binding of magazines, have brought the additions of the year to 865. If books never wore out, and if disease, fire and destruction were not so much in evidence, losses would not have to be reported. This year, the lost and discarded books, number 51, thus making the gain for the year 814, and the entire number of volumes which may be used for reading or study, 20,877.

The gifts have not reached as large a number, the more valuable being those of Mr. Bernard Feeney, of New York, Mrs. C. S. Whitehouse, of Gonic, Mrs. Cora B. Hayes, of East Rochester, Mrs. Martha Horr, Mr. C. A. Breck, Mrs. Hattie Corson, Mrs. Sarah Yeaton and Mr. John B. Horne.

In the purchase of books, attention has been paid to the demands of patrons and there has been no money for replacements, or the many books which should have been added. Perhaps few realize how hard a task it is to supply, even the needs of the library, with the income which can be spared. One could easily make out a list for a thousand dollars' worth of books, and not have a useless volume, to cut down the list, that it may come within a hundred dollars, is the difficulty.

Perhaps of even greater importance, than the growth of the library, is the use made of it. This may be shown, to some extent, by the circulation of books and by the patronage of readers and students.

9,543 more books were given out this year than last, making a total circulation of 66,228, with a daily average of 221. The largest number any one day 606, and the smallest 64.

To the children's room have come 9,885 young readers, and 20,019 books have been given out. These figures show an increase of 1,991, in readers and 4,126 in circulation, in spite of the fact, that only 63 volumes were purchased for the children, during the year.

During the six or seven hours of the 304 days, 18,599 readers and students were counted in reading and reference rooms; of the number 2,342 were students requiring assistance for theme or study. Many of

them spending several hours in the room. Thirty-five students have been counted in a single day. The largest number of readers in one day was 143. 2,104 volumes have been sent to the three agencies, and a total of 4,470 books given out, showing an increase of 797, over last year.

Someone has said, that education consists not so much in knowing things, as in knowing where and how to find out about things. If this be true, then the library is a very necessary factor in the educational system of the city, and is in itself an institution, which should render all other institutions more valuable. Therefore, it should not be crippled for lack of funds, but should be able to furnish the latest and best information on any desired subject, whether it be current events, social or political affairs, philosophy or religion, science or the arts, vocations or vacations, geography or history, language or literature.

Another mission of the library is to be able to provide for the healthy relaxation or recreation of the citizens. It has been the experience of this library, that busy people, those whose minds are employed with problems of finance, with business or affairs, those who teach and preach, depend upon the library, not alone for what is helpful, but for recreation. It is, therefore, one mission of the library to see that, ir "their hectic, overcrowded life" they do not allow themselves "to be cheated and defrauded of the joy in books." There is no greater pleasure, than to give a busy man, or a tired woman, some interesting book, which will serve either as a stimulant, a narcotic or a restorer.

With the library, as with other things, each year

shows some new need. Those facing us today, are more income, more shelving, more room for reference work, that the adult student may not be entirely crowded out. It may be necessary to set apart a portion of each day for school pupils, as the best solution of this difficulty.

We have now reached a library era. Libraries are coming well into the foreground of a nation's assets. This is due no doubt to their prominence in the war activities. Men have learned to use books as never before, and have come back from the front, and from training camps, demanding more from libraries. Our library must be ready to meet the demands made upon it, or, drop into the background with the obsolete.

The work has gone on with the same degree of regularity although the loss of an assistant of several years' experience was something of a handicap during the first of the year. Miss Felice Baril, of the graduating class of 1918, who was appointed as her successor, is showing great interest in the work.

The members of the staff are often asked, "What they find to do in the library?" The questioner forgets, that books do not grow on shelves, and does not take into consideration the process of careful selection, crediting, colating and preparation; the classifying, cataloging, listing, numbering and accessioning, which even the tiniest volume grows through, before it makes its debut as a library book. He does not realize the careful charging and accounting, when it goes out, nor the crediting when it comes in, that each book, pamphlet or magazine may be found or traced at any moment; nor the time which it takes to keep the great family of books tidy. He cannot even imagine

the questions to be answered, the data looked up, the letters to be written, the endless number of postals to be sent after overdue books; nor the bookkeeping required to look after each two-cent fine; nor the records of day and month and year, which make even the simplest of annual reports possible. All these things and more are in the day's work. There is no idle time during library hours.

This year of 1919 has been a hard one for the librarian and it has been only by the faithful efficiency of the assistants, the helpfulness of Miss Walker and Miss Grant as extra assistants, and the kindness of the trustees that the work has been pushed through with any measure of success.

I wish at this time to thank the trustees, the assistants and the patrons of the library for their kindness and patience during the year.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

December 31, 1919.

Report of

Superintendent of Schools

To the School Board of Rochester:

I herewith submit my first report as your superintendent of schools, it being the twenty-eighth in the series of such reports.

THE TEACHING FORCE

The corps of teachers is of course the most important factor in educating our pupils. All else serves merely to provide accommodations, material, and direction for the work. Therefore it is clear that the one essential in a school system is a faculty of able teachers adequately trained. When such teachers are once secured it is equally clear that their services should be retained as long as possible. Then we shall have not only good schools but also continuity of policy and method.

Securing and retaining competent teachers depends largely upon three factors—adequate salary, pleasant working conditions, and satisfactory room and board. The new salary schedule adopted by the Board goes a long way toward making this factor adequate.

Satisfactory working conditions mean a suitable building, adequate equipment and supplies, and sympathetic supervision. The third item is a home-like boarding place for those teachers who come from other localities. This directly affects the health and mental poise and so either enhances or decreases the teacher's efficiency in school. We should not expect teachers to be happy, well, and energetic when compelled to live with less comfort than in their own homes. We can not expect teachers who are forced to live in such a way to have a strong desire to remain with us. Citizens who have comfortable homes and ample accommodations can not only perform a kind of public service but can help make a worthy stranger comfortable and contented by opening up their homes to the teachers.

I take this opportunity of saying that Rochester has an able and loyal corps of teachers who are worthy of receiving all rewards which an appreciative city can bestow upon them.

ATTENDANCE

Some rooms had nearly one-fifth of the pupils absent every day on an average. Absences are often necessary, but should be as rare as possible. A pupil who is habitually absent cannot expect to grasp enough of the year's work to be promoted. Six schools (including the High School) had an excessive number of tardinesses, an average of more than three per pupil. There may be good reasons for a pupil being absent, but if he is going to school at all there is seldom a good reason for his being tardy. Tardiness is too often a habit of carelessness and should be vigorously eradicated. Grade two of Maple Street had the best record of attendance last year and Grade six of School Street the lowest number of tardinesses.

EVENING SCHOOL

The evening school for teaching English to those who have an imperfect knowledge of our language had a successful beginning last winter and has been continued with larger numbers. There are now six classes. The total enrollment is 101 and the average attendance is now 66. The three teachers of last year, Mrs. B. R. Cooper, Lillian Dennett, and Alice M. Corson have fortunately been retained. To those were added Mrs. Nancy Evans, Laura Elms, and Emily C. Davis. Upon the latter's resignation Jean J. Keir was appointed. The faithful and efficient services of the teachers and the earnest effort of the pupils have made the evening school very successful. The pupils have been taught not only to speak, read, and write English but also the fundamentals of arithmetic and American institutions. It is planned to start classes for men who wish to take out naturalization papers.

RETARDED PUPILS

There are in every school system pupils whose ages are above the normal ages for their grades. Some are not really able to do the work which their schoolmates are doing, others are retarded owing to sickness with its consequent absence from school, and others are over-age simply because they entered school late. The standard commonly agreed upon is that which rates as "above normal age" all children in the first grade who are eight years or older, those in the second who are nine or older, and so on for the following grades. About twenty per cent. of the Rochester pupils are over-age. It is found in cities where such a study has been made that from 5 to 50 per cent. of the pupils are

above the normal age, the average being about 33 per cent. Of these over-age pupils in Rochester there are at least twenty-five who are really unable to do the work. They have repeated grades, and are now misfits in the grades in which they are located. They profit very little from the regular school work presented to them and are more or less of a hindrance to the instruction of normally developed children. These children are compelled by law to attend school until the age of 16 (they can not advance rapidly enough to finish the eighth grade between 14 and 16 when the law permits a pupil to leave school), yet we have not recognized their peculiar needs and rights by adapting instruction to their ability. Not only justice but decided benefit would result from putting these pupils in a room where they can have appropriate instruction by a special teacher. A school system of our size and standing should not longer be without such a room.

EVALUATION OF SCHOOL WORK

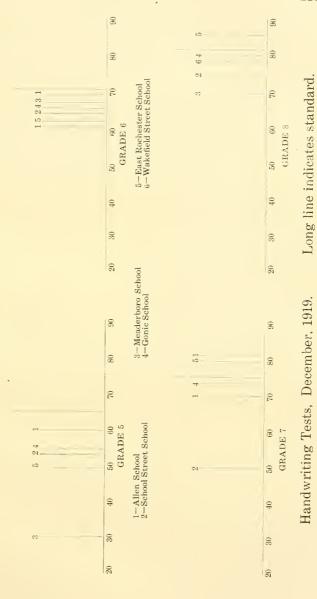

It is sometimes said that our schools are graduating pupils who are not thoroughly grounded in fundamentals, namely the so-called "three R's." That many pupils are apparently deficient in this respect can not be denied. The extent of these deficiencies and their causes are not clearly understood. Parents and citizens are absolutely right in demanding that the schools which they support train boys and girls to read intelligently, write legibly, and perform ordinary arithmetical calculations. This is by no means all they should learn, but it is indeed fundamental. In any trouble it is first necessary to find out pretty exactly what the real situation is; then remedies can be applied intelligently. Accordingly I propose to give in

the schools the standard educational tests which have been devised for the several subjects of instruction and see how our schools compare with others in the country. A careful study of the results of such tests will without doubt reveal any weak points and indicate the way to improvement.

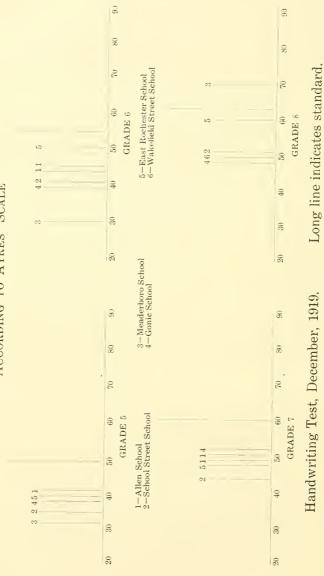

Handwriting tests have already been given in the four upper grades and the results discussed in a teachers' meeting. The accompanying diagrams show clearly how the several rooms in any one grade compare in speed and quality with each other and with the standards. Identical typewritten slips were placed on each pupil's desk. The passage was copied once for practice and then written in ink. Just two minutes were allowed for the final copying. These samples were graded in the superintendent's office according to the Ayres' Scale of Handwriting, published after a wide investigation by the Russell Sage Foundation. This scale has samples of different qualities of handwriting arranged in ascending order from poor to excellent. The several qualities are assigned arbitrary numbers 20, 30, 40, 50, 60, 70, 80, 90; 20 being the poorest. The speed is expressed in number of letters per minute.

Four interesting facts are strikingly shown by the diagrams: (1) The several sections of any one grade have very nearly the same record in either speed or quality. That is, the instruction and attainment in handwriting are practically uniform throughout the city. (2) The quality is a little below the standard with the exception of the Meaderboro eighth grade. It should be remembered that the Meaderboro School has very small classes and an average is therfore based on only three or four pupils all of whom may be either

SPEED LETTERS PER MINUTE

ROCHESTER HIGH SCHOOL

good or bad. (3) The speed in writing is nearer the standard than is the quality and in some cases surpass it. (4) The pupils are so little below standard that it is entirely possible to attain it. Much of the school year is still before us. Many pupils are already up to or above the standard, so the teachers' efforts can be concentrated on the pupils below.

In this connection might be mentioned the criticism that employers of pupils have made about the poor quality of their work. I should like to suggest that any person desiring to employ a pupil of our schools first consult the school authorities and obtain the pupil's record. There are some that we can recommend and others that we can not. Moreover it will be a powerful incentive to earnest effort and good work if the pupils know that future employment depends upon a good school record.

MEDICAL INSPECTION

For two successive years a majority of the voters of the city have expressed their wish to have medical inspection in the schools. This is right and logical. A government which by law compels children to attend school, as it must for its own safety and growth, is bound to guarantee to parents healthful conditions in schools. Such healthful conditions are threefold: (1) The school building must be sanitary in structure and operation and adequately equipped. This means good water supply and drainage, cleanliness, good light in class rooms, seats adjusted to pupils, and suitable books and supplies. (2) Protection against the spread of disease must be provided. This means the detection of illness, prompt diagnosis by school physi-

cian, exclusion of contagious cases, disinfecting school property when necessary, and no readmission of convalescent pupils except upon physician's certificate that danger of spreading the disease is passed. Schools need not be closed during an epidemic if there is a staff of school physicians whose duty it is to attend to. these matters. Under the present system the school physicians are not engaged to do all this; they merely inspect the pupils once a year. This is good but is not complete. (3) Physical examinations and remedial treatment when needed constitute the only guarantee that the boys and girls will grow to be sound and healthy men and women. Our country needs such citizens. Very often physical defects go unnoticed. The school examination can reveal these at a time in the life of the children when they can be most easily and surely remedied.

The present plan of providing only one annual examination should be enlarged to include the features mentioned above. A physician should be employed not only to inspect the pupils annually but to diagnose suspected cases whenever called upon and rule upon exclusions and readmissions. There is also needed a nurse to assist in the examinations and follow up notices of defects which are sent to parents. This is absolutely essential for the utmost efficiency of any system of medical inspection of schools. Too often the notices are not understood or are neglected. An explanation by a tactful and competent nurse will usually secure the attention needed. I am well aware this will cost more than the present system. But is there anything more important than the health of our boys and girls? It is not always a question of cost but rather "is it worth the expense?" Doubtless the

plan I suggest would entail an expense of at least \$1,500 as compared with \$600 at present.

The report of the inspection of 1919 shows how necessary is an adequate system of safeguarding the health of pupils. A large percentage has defective teeth, enlarged tonsils, or adenoids. These have been proved a hindrance to a child's progress in school work because they impair the general health. The other diseases are not as numerous but are very important to the affected pupils and ought to have careful attention.

WHERE THE MONEY GOES

Table H shows how many cents out of every dollar are spent for the various items in the budget. Most of the money goes for the teachers' salaries as it should. The average for twelve eastern cities as recently computed allows \$.64 out of every dollar for teachers' salaries; the standard advocated is \$.70 at least. Rochester pays a large sum for transportation. The new school law makes two miles the distance for which a school board is obliged to furnish transportation. Probably it will be wise to make a careful survey before new transportation contracts are made. Transportation should be furnished when necessary, but on the other hand the child and the parents also have some responsibility in getting to school.

In connection with school expenditures I would point out that it costs the city about \$68.00 a year to educate each high school pupil and about \$47.00 to educate each grade pupil. Therefore the present tuition rates should be increased, because it is not to be expected

that we shall educate pupils from other towns for sums much less than the cost for our own pupils. I recommend that a high school tuition of \$55.00 a year (which is the highest amount that can legally be charged a town sending pupils to a high school) and \$1.00 a week for tuition in the grades.

My work in Rochester has been very pleasant because of the cordial cooperation of the School Board, teachers, and parents. A superintendent's duties are numerous and his responsibilities are great, but in attacking the many problems that present themselves for solution I do so with confidence knowing that I have associated with me a progressive Board, a loyal corps of teachers, and an interested body of citizens. I can not pass without speaking a word in appreciation of the way in which the City Council showed its genuine interest in the schools by voting without change the budget presented by the School Board.

Respectfully submitted,

ALFRED W. SMITH.

Report of

Headmaster of High School

To the Superintendent of Schools:

Dear Sir:

It gives me great pleasure to present to the citizens of Rochester the following report.

The school report is much the same from year to year. It consists largely of congratulations upon the many goods things to be found in the school. If, therefore, this report departs from the plan of previous years, it will not be because there are not the same good features in the school that have existed in the past, but because it seems needless to repeat in the report the same things year after year. In this limited report I shall confine myself to the problems which in my opinion concern every citizen.

The important duty of the high school is to train the mind of the boy or girl to have the power of reasonable insight, of deliberation, of firmness, of decision, of independence, of judgment, and sufficient action. To secure this there must be interest and effort on the part of the student, for he is the real center of the educational process. He is the one about whom the curriculum and the teacher revolve. There may be several reasons why the pupil does not put put forth adequate effort and show sufficient interest

in his school work. The chief of these is that most of the students do not know how to study. This fault does not lie with the students, for they are ambitious, active, and energetic. Every pupil is ready to study and to conform to the rules and regulations of the school. The difficulty is that there is little or no opportunity for efficient guidance or supervision of the pupil's study habits during his school years.

When education meant merely a reasonable proficiency in the three R's, it was a comparatively simple task to study. Books were few and thin. The applications of knowledgs were few and local. Today, however, there are over two hundred subjects taught in the high schools of America. Some of these are closely similar to others, but as stated in a hundred catalogues in 1913, the subjects are over two hundred. Requirements have increased, and electives have multiplied. Books are many and heavy. Hours are long and crowded. Of necessity school work is becoming highly standardized so that it is now more difficult for a pupil to complete a course in our school system. The school program with its many additions presents a problem to the conscientious parents and the teacher who are just as solicitous of the pupils' physical as well as mental development. Although reconstruction and revision are the spirit of modern life, it does not follow that supervised study should not have a prominent, if not a central place in our school system. Faulty habits of study, which are easily acquired in the earlier grades, become increasingly inflexible as the pupil advances. He adopts the easy method of memorizing; consequently when he enters high school and memorizing is not a successful method, he loses interest and courage.

"Supervised study it that plan of school procedure whereby each pupil is so adequately instructed and erected in the methods of studying and thinking that his daily preparation will progress under conditions most favorable to a hygienic, economical, and self-reliant career of intellectual endeavor." It prepares the pupil for more than high school graduation or courses in higher education; it prepares him to cope with problems in a world of competition where success depends upon clear thinking and initiative.

Some of the advantages derived from supervised study are that it prevents waste of energy, teaches pupils how to use their minds, inspires pupils to study because they know how, brings about a better mutual understanding between teacher and individual pupil, allows leisure for extra school work, family life, athletics, music, art, reading, social and religious activities, without neglecting school work, reduces the amount of home study especially during the first two years of high school.

At present there is no provision in our program for supervised study. It seems to me that it would be advantageous for the Rochester High School to use this method of study to a modified extent. It would necessitate having two more teachers. This requirement is small in comparison with the benefit which would be derived.

The problem of choosing a vocation is, also, another essential factor which must have careful consideration of both parent and pupil before the pupil enters the high school. Unless the student has some idea of what he intends to take up after leaving school, he will naturally choose the easiest course. Instead he should

take those studies which aim at culture, knowledge, and development, together with those that aim at efficiency, character, and citizenship. A course of study for the year 1920-21 will be issued soon, and it is hoped that every pupil may have the careful judgment of his parents in selecting his studies for next year.

Another serious problem that we encounter in keeping up the scholarship is that of attendance. Pupils of high school age should make their attendance as nearly perfect as possible. Absence, tardiness, or dismissal cause loss of time to the teacher, the pupil, and the class. Special work is required until the pupil has made up the assignments lost. In the meantime either the entire class has been delayed, or the teacher has been forced to sacrifice her time outside of school. The only valid excuse for absence is sickness. School takes only five hours out of the day, and therefore there is sufficient time before and after school for home duties. The co-operation of the parents is especially desired in the prevention of infringements upon school time.

To be sure, the teacher is the developer, mediator, and interpreter to the pupil, but still he greatly needs the help and assistance of the parents. They should visit the school frequently, and co-operate with the teacher in making the school hold a central place in the community. The parent can help the teacher by insisting on a certain amount of home study, which is absolutely necessary for the best interests of the pupil and the school.

We must not forget the fact that the boys and girls, who throng our school houses today, will be the men and women upon whom the welfare of the nation will depend tomorrow. It is, therefore, our duty to the boy, to the girl, to society, and to our country to make our schools as efficient as possible.

The Springfield scholarship was awarded to Katherine Hartley of the class of 1918.

Gifts to the school this year, for which thanks are expressed, are the Dartmouth medal, the gift of Fred Allen Walker; and a picture of the "Spirit of '76," the gift of Mr. A. P. Little and family in memory of Norman Little, who was killed on the battlefield of France. The Dartmouth medal for excellence in scholarship was awarded to Louise Richardson of the class of 1922.

In the class of 1919 the following students were given diplomas.

SCHOOL SESSIONS

High School, 8.00 A. M.-1.00 P. M.

Allen, School St., Maple St., 8.45-11.45 A. M. and 1.15-3.15 P. M.

East Rochester, 9.00-11.55 A. M. and 1.15-3.20 P. M. Gonic, 8.45-11.45 A. M. and 1.00-3.00 P. M. Meaderboro, 8.45-11.45 A. M. and 1.00-3.15 P. M.

HOLIDAYS

Labor Day, Columbus Day, Thanksgiving Day, with the Friday following, Christmas Day, New Year's Day, Washington's Birthday, Fast Day, Memorial Day, and every Saturday.

NO-SCHOOL SIGNAL

Two blasts upon the fire alarm, repeated once. At 7.05 A. M., all schools closed for the forenoon. At 8.00 A. M., elementary schools closed for the forenoon.

At 12.30 P. M., all schools closed for the afternoon.

At 11.15 A. M., all grades dismissed at the usual morning closing hour for the rest of the day.

The same signals will be sounded in Gonic and East Rochester.

TUITION

Tuition for non-resident pupils is \$55.00 a year for the High School and \$1.00 a week for the elementary schools, payable by the term in advance.

Non-resident pupils desiring to be admitted to Rochester schools should first secure a written permit from the superintendent of schools.
